	Place an X in the appropriate boxes to indicate any known, suspected, or likely releases of wastes to the environment. Note: Items H and I are optional. Completing these items will assist EPA and State and local governments in locating and assessing hazardous waste sites. Although completing the items is not required, you are encouraged to do so.				
H	Sketch Map of Site Location: (Optional		and a good to do do.		
	Sketch a map showing streets, highways, routes or other prominent landmarks near the site. Place an X on the map to indicate the site location. Draw an arrow showing the direction north. You may substitute a publishing map showing the site location.	exas			
	1	Pit	To Rocket, Texas		

Description of Site: (Optional)

Describe the history and present conditions of the site. Give directions to the site and describe any nearby wells. springs, lakes, or housing. Include such information as how waste was disposed and where the waste came from. Provide any other information or comments which may help describe the site conditions

Waxahachie, Texas

From 1963 to 1967 all plant drums were sent to this site for disposal. Most were resold for trash drums. It is known that drums with adhesives and solvents in them were burned cut and also sold as trash drums. The actual site is an uncovered sandy pit. There is trash material present along with some refractory (brick) from furnace rebuilds which is suspected of containing chromium. Approximately 30 drums of unknown material are also present.

Signature and Title:

The person or authorized representative (such as plant managers, superintendents, trustees or attorneys) of persons required to notify must sign the form and provide a mailing address (if different than address in item A). For other persons providing notification, the signature is optional. Check the boxes which best describe the relationship to the site of the person required to notify. If you are not required to notify check "Other".
